HALL MONITORING & STAND SECURITY

To order a security service, check the "Facilities" section, in your **Exhibitor Area**.

HALL MONITORING

General surveillance of the show is the responsibility of the organiser and is carried out in the very best conditions, yet this is an obligation of means and not of results.

The show's security company is aware of an increase in thefts and will ensure increased surveillance in the common areas.

Car parks are not monitored, objects of value inside vehicles must not be left out to ensure they do not attract interest.

STAND SURVEILLANCE

Exhibitors who choose to use special surveillance for their stands are asked to inform the organiser of this fact by providing a list of the people who will be intervening on the stand as well as the name and contact details of the chosen surveillance company.

Exhibitors are responsible for their own stands and must take all necessary precautions to ensure their equipment is protected and removed in the evening upon closing if no surveillance has been put in place.

Imported goods must be cleared by the Customs Service before being placed on the Exhibitor's stand.

Please note: Stand stockrooms are not secure premises.

THEFT PREVENTION

Due to an increase in theft noted during the assembly, opening and dismantling periods, some basic rules must be applied by the exhibitor:

- Do not leave your personal belongings out (wallets, handbags, bags, etc.),
- Do not leave mobile phones unattended,
- In the evening, tidy away any valuable items (computers, laptops, tablets) in a lockable unit or take them home with you,
- During the assembly and dismantling periods, one person must continuously be present at the stand.

This person serves as your only guarantee against theft.

AN ECO-RESPONSIBLE TRADE FAIR

Natexpo stands up for environmental friendliness and the reduction of ecological footprint, both fundamental values for us. We are committed to assure an eco-friendly and zero-waste environment, from planning through project implementation.

Waste management

- During stand assembly and dismantling, cardboard and wood waste is collected separately from exhibitors
- During the show, visitors are offered the chance to sort their waste
- Waste is then sorted, packed and shipped to the appropriate waste recovery processes

Cleaning **equipment** used during the show comprises eco-friendly cleaning products.

90% of the show signage is made of cardboard.

Promotional documents are printed entirely on recycled paper or on paper from sustainably managed forests. Paper invitation have been replaced **by e-invitation** sent by email.

Natexpo offers eco-friendly stand fittings, with low-energy lighting, carpeting subsequently recycled and PEFC-certified reusable partition walls. From now on, no carpet is installed in the aisles.

We encourage carpooling via our website.

Zero waste with a commitment to French Red Cross: during the last edition in Paris, 8 tons of goods were collected. The French Red Cross teams will be allowed to tour the stands on the last afternoon of the show (Tuesday 26 October) to ask exhibitors for their unconsumed products during stand dismantling. We thank the exhibitors for their generosity and the volunteers of the Red Cross for their availability.

You will find at Natexpo a 100% organic food offer.

The badge holders come from the circular economy and are made from recycled and recyclable material in a factory in the local Seine-Saint-Denis department.
